

UCI School of Medicine

Assistant or Associate Professor in Biological Chemistry

As outlined in the UCI Recruit job listing: <https://recruit.ap.uci.edu/apply/JPF04908>

Applications are invited for a position at the level of **tenure-track ASSISTANT or ASSOCIATE PROFESSOR**. The Department of Biological Chemistry (BC) is highly interdisciplinary, with particular strength in epigenetics, metabolism, cancer, and circadian biology. Faculty of BC benefit from participation in the UCI Cancer Research Institute (CRI), the NCI-Designated Chao Family Comprehensive Cancer Center (CFCCC), and the Center for Epigenetics & Metabolism. We seek outstanding candidates with experience in flux metabolomics whose research will address mechanistic connections between cancer and metabolism. Applicants should hold a Ph.D., M.D., or equivalent degree and seek to establish a vigorous and highly competitive research program. Please submit the following documents: curriculum vitae, a description of research and teaching interests, and at least three letters of recommendation. A separate statement that addresses past and/or potential contributions to diversity, equity and inclusion is also required. Criteria for the research, teaching, and diversity statements are provided below. Review of applications will begin December 1st, 2018 and continue until the position is filled.

Research Statement (3 pages). This statement should:

1. Detail the candidate's **specific area of expertise**, with a description of their contributions to the field.
2. Provide a detailed **plan of their future independent research program**, and how this program will be leveraged to obtain extramural funding.
3. Indicate how the candidate's research program will **synergize with the research environment at UCI**, including the resources provided by the CRI (<http://cri.bio.uci.edu>) and CFCCC (<http://www.cancer.uci.edu>).

Teaching Statement (1 page). This statement should:

1. Indicate the candidate's teaching **experiences** to date, including experience with classroom teaching/lecturing, training undergraduates/graduate students, or other populations. This should also include **mentorship** that they have given to others in the line of research or outreach activities.
2. Detail the candidate's training and scientific expertise that can be applied to classroom curriculum.

Diversity Statement (1 page). The UC Statement on Diversity is available at:

<http://regents.universityofcalifornia.edu/governance/policies/4400.html>. This statement should:

1. Indicate how the candidate has demonstrated **awareness** of the issues faced by historically underrepresented or economically disadvantaged groups and the benefits of a diverse and inclusive faculty.
2. Provide evidence (if any) of the candidate's **track record and success** in activities aimed at reducing barriers in education or research for underrepresented or disadvantaged groups.
3. Detail **specific plans** (if any) to contribute through campus programs, new activities, or through national or off-campus organizations.
4. Detail **specific plans** (if any) to contribute through campus programs, new activities, or through national or off-campus organizations.
